LUXURY WATERPROOF FLOORS

Images are intended as visual guidelines and may not be an exact representation of the hardwood Floors. Flooring contains natural occurring marks that may include open and filled knots, splits, checking, minimal sap, mineral streaks, color variations, embodied cracks, and variations in grain. Freshly unpacked cartons may initially vary in color from the sample. Exposure to sunlight and weather naturally antiques hardwood, settling into the color of this sample over time. Every tree provides us with unique natural characteristics and the newly installed floor may vary from samples or pictures shown. Before installation, always check and approve the flooring material.
